

```
> # set global chunk options  
> opts_chunk$set(fig.path='figure/minimal-', fig.align='center', fig.show='hold')  
> options(replace.assign=TRUE,width=90)
```

# A Summary of Time Series Analysis Result

Carol Zhang

April 23, 2013

This is the report generated automatically from **R** with package **knitr**. Here are some simple visualizing plots of the data:

## 4-Week Moving Average of Initial Claims

The first element of **x** is 0.144958306409317. Boring boxplots and histograms recorded by the PDF device:

Do the above chunks work? You should be able to compile the **T<sub>E</sub>X** document and get a PDF file like this one: <https://bitbucket.org/stat/knitr/downloads/knitr-minimal.pdf>. The **Rnw** source of this document is at <https://github.com/yihui/knitr/blob/master/inst/examples/knitr-minimal.Rnw>.
